Famous for introducing the character of the vampire Count Dracula, the novel tells the story of Draculas attempt to move from Transylvania to England, and the battle between Dracula and a small group of men and women led by Professor Abraham Van Helsing. Dracula has been assigned to many literary genres including vampire literature, horror fiction, the gothic novel and invasion literature. The novel touches on themes such as the role of women in Victorian culture, sexual conventions, immigration, colonialism, and post-colonialism. Although Stoker did not invent the vampire, he defined its modern form, and the novel has spawned numerous theatrical, film and television interpretations. The story is told in epistolary format, as a series of letters, diary entries, and ships log entries, whose narrators are the novels protagonists, and occasionally supplemented with newspaper clippings relating events not directly witnessed. The events portrayed in the novel take place largely in England and Transylvania during 1893.
